DEXTER PASCUAL OCADO

Brgy. Ilasan Ibaba, Tayabas City, Quezon | 0994 193 4786 | ocadodexterp@gmail.com | https://ocadodp.github.io/portfolio/

SUMMARY

Results-driven Project Development Officer and Mathematics graduate (Cum Laude) with Civil Service Professional eligibility (93.99% Rating). Skilled in quantitative analysis, statistical modeling, and systems automation. Adept at leveraging Python, R, Power BI, and Advanced Excel to transform complex datasets into actionable insights. Experienced in streamlining operational workflows and developing automated reporting dashboards to support data-informed decision-making and organizational efficiency.

PROFESSIONAL EXPERIENCE

PROJECT DEVELOPMENT OFFICER I *November 2026 - Present*

Department of Information and Communications Technology (DICT) *Studio 7, 807 EDSA, Diliman, Quezon City, Manila*

- (More details to be updated as I dive deeper into the role.)

DATA AND SYSTEMS AUTOMATION INTERN *March 2026 – April 2026*

Department of Budget and Management (DBM) Central Office *General Solano St., San Miguel, Malacañang, Manila*

- Automated the nationwide Competency Assessment reporting process for over 1,200 employees, transforming a highly manual PDF generation and data aggregation task into a single-click workflow that executes in seconds.
- Engineered a centralized web application using HTML, CSS, and JavaScript to streamline supervisor validation and track division-wide assessment completion statuses.
- Developed a dynamic data pipeline that eliminated manual pivot tables and ranking, automatically generating interactive HTML dashboards alongside comprehensive, 34-sheet Excel reports handling up to 5,000 rows of data per sheet.

DOST SCHOLAR-TRAINEE (Practical Training Program) *June 2025 – July 2025*

Southern Luzon State University Main Campus *Lucban, Quezon*

- Executed diverse technical and multimedia projects for the BS Mathematics department, including producing a promotional video, digitizing the "Theory of Interest" module, cataloging alumni theses, and developing interactive Power BI dashboards.

EDUCATIONAL RESEARCH

Volatility Dynamics and Time-Varying Interdependence in the Philippine Stock Market: A Univariate and Multivariate Time Series Analysis, *Co-Author, April 2026*

- Designed an econometric framework using ARIMA, VAR, and DCC-GARCH models in R to evaluate systemic risk, volatility clustering, and financial contagion within the Philippine banking sector.
- Analyzed complex multivariate time series data to assess asymmetric leverage effects and translate dynamic market behaviors into actionable financial insights.

Two-Stage Offline Signature Verification with KNN-Harris Pre-Filtering and CNN-Siamese Network Matching, *Co-Author, October 2025*

- Developed a deep learning-based signature verification system using Python and PyTorch (KNN-Harris & CNN-Siamese Network), achieving ~90% accuracy on a dataset of 4,000+ identities.

Award: Best Thesis Presentation at the 2026 BS Mathematics Research Colloquium

LEADERSHIP

Public Information Officer (PIO) / Public Relations Officer (PRO) *2023 - 2026*

Class Officers, BS in Mathematics (Batch 2026)

- Served as the primary liaison between the class and faculty members for three consecutive years (PRO in 2023; PIO in 2024-2026).
- Managed official class group chats and communication channels to ensure timely dissemination of assignments and announcements.
- Coordinated with professors to streamline information flow regarding schedules and deadlines.

EDUCATION

SOUTHERN LUZON STATE UNIVERSITY *Lucban, Quezon*

Bachelor of Science in Mathematics *September 2022 – June 2026*

- DOST-SEI JLSS Scholar Graduate
- Cum Laude
- Relevant Coursework: Actuarial Math & Theory of Interest, Statistical Modeling & Multivariate Analysis, Operations Research & Numerical Analysis, Computing & Linear Algebra

SKILLS

Data & Analytics: Python, R, SQL, Statistical Modeling, Deep Learning, Machine Learning, Data Visualization

BI & Dev: Power BI, Advanced Excel, Power Automate, Power Query, HTML/CSS/JS
